

University of Missouri Graduate School
Electronic Thesis and Dissertation Release

Student Name: Marat Musin

Advisor: Haojing Yan

Department: Physics & Astronomy

Graduating Year: 2018

Thesis/Dissertation Title:

Synergy of Wide-Field Infrared survey explorer (WISE)
and the Sloan Digital Sky Survey (SDSS) in Stripe 82

Student Agreement:

I hereby grant to the Curators of the University of Missouri and its agents the non-exclusive license to archive and make accessible, under the conditions specified below, my thesis/dissertation, in whole or in part, in all forms of media, including but not limited to electronic media, now or hereafter known. I retain all other ownership rights to the thesis/dissertation, including but not limited to the right to use in future works (such as articles or books) all or part of this thesis or dissertation.

I have either obtained permission from the owners(s) of each third party copyrighted matter to be included in my thesis, allowing distribution as specified below in Part A, or I have removed all such copyrighted matter that I lack permission to reproduce or distribute.

The version I am submitting is the same as that approved by my advisor minus any parts that I lack permission to republish. I have obtained my advisor's approval of this thesis/dissertation, as reflected by his or her signature on the attached page.

Part A.

The above-mentioned document may be placed in the ET archive with the following status:

- ☒ 1. Release the entire work immediately for access worldwide.
- ☐ 2. Release the entire work for University of Missouri System access only. *
- ☐ 3. Release the entire work for University of Missouri-Columbia access only. *
- ☐ 4. Delay the release of the entire work for 1 year.

After 1 year the work should be released

- ☐ For access worldwide
- ☐ For University of Missouri System access only*
- ☐ For University of Missouri-Columbia access only*

*Please note that the University is unable to file copyright on your behalf if your work is restricted to the University of Missouri System or University of Missouri-Columbia campus.

If part of your thesis requires special treatment (e.g. media or special graphics), please describe the restriction you wish to impose:

Part B.

You may want to designate (optionally) one or more faculty or staff as a proxy, in the event you are not available in the future but want someone to have the right to initiate a change on Part A of this form on your behalf. This is an option, not required. Each of the following people is authorized to serve as a proxy in submitting future versions of this form. Such proxy submissions are officially recognized, Review and Acceptance (please check)

Part C.

Review and Acceptance (please check box below)

A final copy of the thesis or dissertation has been reviewed and accepted by the adviser. Accompanying this form are media containing a PDF version of the thesis or dissertation document and any additional data, image, or media files that you choose to distribute (please describe limitations in Part A of this form). The Graduate School will transmit this file to the MU Libraries, along with a copy of this form containing distribution preferences.
